Construction Projects Contract Approval

Bids were opened November 20, 2008, for the following project:

1. Stephens State Forest, Whitebreast Unit, Lucas County – Pond Outlet Replacement

This project consists of the replacement of the pond outlet pipe, construction of a sediment basin, and other related work as required by the Plans and the DNR Construction Inspector.

Project was designed and will be inspected by Jason Kruse, District Inspector. DNR estimate is \$40,000. Funding will be provided by Federal Dingle Johnson and REAP Land Management Forestry (Capital Link #154). 20 sets of plans were issued. 7 bids were received.

Kinman Company Inc.	Oskaloosa, IA	\$34,231.80
Muhs Trucking & Excavating	Birmingham, IA	\$43,926.24
Jay & Garrett Inc.	Leon, IA	\$44,181.53
Vanderpool Construction Inc.	Indianola, IA	\$58,085.79
C.L. Carroll Company Inc.	Des Moines, IA	\$67,385.00
Kevin Kent Construction	Lucas, IA	\$85,932.00
Keller Excavating	Boone, IA	\$99,542.00

Staff recommends the acceptance of low bidder, Kinman Company Inc.

Bids will be opened December 4, 2008, for the following projects:

2. Lake Wapello State Park, Davis County – Lake Restoration

This project consists of the construction of in-lake fish habitat, shoreline deepening and armoring, new jetties, modifications to existing jetties, repair of several silt dikes, one new silt dam, boat ramp improvements and incidental work as required by the Plans and the DNR Construction Inspector. Purpose of this project is to improve fish habitat throughout the lake bed, construct three new jetties, improve habitat adjacent to existing jetties, create numerous spawning beds for pan fish production and repair and construct several silt ponds within the watershed.

Project was designed by Ken Jackson, DNR Engineer, and will be inspected by Jason Kruse, District Inspector. DNR estimate is \$395,440. Funding will be by Federal Dingle Johnson and Lake Water Quality Improvement (Capital Link #149).

Staff recommendation for the acceptance of the bid to be presented at the NRC Meeting.

3. Green Valley State Park, Union County – Spillway Renovation

This project consists of the reconstruction of the existing concrete spillway to prevent rough fish from entering the lake and repair of portions of the remainder of the spillway and incidental work as required by the Plans and the DNR Construction Inspector. Purpose of this project is to eliminate rough fish access into the lake, improving water quality and increasing viability of game fish populations.

Project was designed by Kevin L. Arp of Kirkham-Michael and will be inspected by Mark Johnson, District Inspector. K-M estimate is \$840,000. Funding will be by Lake Water Quality Improvement (Capital Link #97).

Staff recommendation for the acceptance of the bid to be presented at the NRC Meeting.
